# HIDTA TIMES

## Director's Message

The Oregon-Idaho HIDTA was recently awarded a total of \$610,485 in HIDTA discretionary funds to support 4 strategic initiatives.

- \$250,000 was awarded to continue supporting eTrace and National Integrated Ballistic Information Network (NIBIN) being conducted in the region. That funding will continue to fund analysts assigned to the Salem Police Department and the Portland Police Bureau. The Bureau of Alcohol Tobacco and Firearms eTrace system is an online tool used by law enforcement to facilitate tracking the origin and history of recovered and seized firearms. NIBIN allows for the capture and comparison of ballistics evidence to aid in solving and preventing violent crimes involving firearms. The utilization of NIBIN is vital to any violent crime reduction strategy because it provides investigators the ability to compare their ballistics evidence against evidence from other violent crimes on a national, regional, and local level, thus generating investigative links that would rarely be revealed absent the technology.
- \$150,485 was awarded and will be utilized by the Clackamas County Interagency Task Force to purchase and deploy a portable mass spectrometer real time drug detection device that detects drugs such as fentanyl with a high level of sensitivity and selectivity. Those funds will also be used to purchase and deploy portable, enhanced video surveillance equipment. All of this equipment will be made available to other HIDTA initiatives in the area which will enhance their investigative effectiveness and efficiency.
- \$115,000 was awarded to enhance the Oregon Overdose Response Strategy initiative by facilitating the creation of an Oregon-Idaho HIDTA demand reduction/prevention strategy. Funding will be used to hire a contractor to work with Washington-Baltimore HIDTA's ADAPT (A Division for Advancing Prevention & Treatment) initiative to complete a drug prevention strategic plan. Funding will also be used to convene a conference of drug prevention professionals in the region with the goal of enhancing relationships and the sharing of information and best practices.
- \$95,000 was awarded to supplement Oregon-Idaho HIDTA initiative efforts to address the country's overdose situation. The Executive Board is currently evaluating 5 funding proposals that focus on prevention, education, information sharing and enhanced investigations.

Congratulations to Portland Police Bureau Assistant Chief Art Nakamura on his upcoming retirement. Assistant Chief Nakamura has been a staunch advocate of drug enforcement in Portland as well as a true ambassador of the HIDTA mission in the state, region, and nation. Assistant Chief Nakamura has served as a HIDTA initiative investigator, supervisor, middle manager and executive. He leaves a legacy of selfless leadership and commitment to his drug enforcement peers and the community that he has served. Assistant Chief Nakamura's retirement leaves a drug enforcement leadership void that will be very difficult to fill.

In 2020 Chandler was released from jail in Chicago on \$500.00 bond based upon his defense attorney stating that Chandler had health problems and was not a flight risk. Chandler was ordered back into custody but never returned after cutting his GPS.

PNVOTF received an anonymous tip that Chandler was going to pick up his vehicle from a detail shop in southwest Portland. PNVOTF members observed Chandler arrive at the shop and approached Chandler. ## ***WESTSIDE INTERAGENCY NARCOTICS***

- ◆ During the summer of 2023, the Westside Interagency Narcotics (WIN) team identified 3 unrelated overdose deaths where the chain of the fentanyl led to the same supplier named “Shorty”. The WIN team also communicated with Multnomah County DDT, and Deschutes County’s CODE, as there was information that “Shorty” was supplying their areas of responsibility.

Through a series of controlled buys, the WIN team identified 3 Honduran nationals as being involved in the distribution of fentanyl. The crew utilized Lloyd Center and Holiday Park to conduct the fentanyl sales, while they slept at a motel in Gladstone. On July 6, 2023 the WIN team conducted a vehicle takedown and subsequent search warrant service on the motel room. The WIN team seized approximately 2,000 fentanyl pills and fentanyl powder. The custody of the three subjects was transferred over to federal authorities.

- ◆ In July 2023, WIN received a tip about a large amount of fentanyl being smuggled into the Portland Metro area by an individual out of Oakland, California. The Alameda County Narcotics Task Force (ACNTF) determined the fentanyl was heading for the Portland Metro area and contacted WIN.

WIN team investigators, assisted by Portland Police Bureau's Narcotics and Organized Crime Division (NOC), located a vehicle they believed contained the large quantity of fentanyl parked near the 1300 block of SW Park Avenue. Jorge J. Alas-Avila was in the vehicle when investigators approached it and was eventually detained. Investigators quickly learned Alas-Avila was wanted for a felony warrant related to narcotics.

With the help of the Multnomah County District Attorney’s Office, investigators applied for a search warrant for the vehicle, which was granted. During the search of the vehicle, investigators located approximately 40,000 fentanyl pills and 18.4 pounds of powdered fentanyl. The total weight of narcotics seized was 28 pounds, and is the largest fentanyl seizure in the history of the WIN team. The seized fentanyl is valued at \$600,000 and contains 3.5 million lethal doses.

The WIN Team worked closely with the Portland Police Bureau, the US Attorney's Office in Portland, the Multnomah County District Attorney’s Office, and task force members from the Alameda County Narcotics Task Force (ACNTF) during the investigation.

- ◆ On August 8, 2023, Yamhill County deputies responded to an overdose death that occurred in rural Dayton, OR. The Yamhill County Interagency Narcotics Team (YCINT) investigated the death, and learned the level one supplier was located in Beaverton, OR. YCINT contacted the WIN team for assistance. The WIN team contacted and detained the level one supplier, who identified their source of supply as a male who lived in Gladstone, OR.

The WIN team conducted a series of controlled buys into the level two supplier in Gladstone. WIN received a search warrant for the suspect’s residence, and executed the search warrant on August 8, 2023 with the assistance of the Clackamas County Sheriff’s Office SWAT and Clackamas County Interagency Task Force (CCITF) teams.

The WIN team seized approximately 10,000 fentanyl pills and 6 firearms.

- ◆ The WIN team investigated an overdose death where the chain of drugs led to a Honduran national drug trafficking organization (DTO) based in Gresham, OR. The WIN team conducted a series of controlled buys into the DTO, and identified several vehicles and an apartment complex associated with the group. On September 26, 2023 the WIN team, with the assistance of the East Metro SWAT team, FBI, and Homeland Security Investigations, executed the search warrant on an apartment associated with the group. In total, three members of the DTO were contacted and detained.

During the subsequent investigation, the WIN team identified a set of keys belonging to a different apartment in the same complex. The WIN team later searched that apartment as well, and it was identified as a fentanyl manufacturing and gun storage space. The WIN team interviewed the suspects, and learned of two impending drug deals to occur later that day. WIN later successfully performed a vehicle takedown on two Mexican nationals transporting fentanyl pills. The WIN team attempted to stop a second vehicle, being operated by a Honduran national, but the suspect fled. The suspect threw a kilogram of fentanyl powder from the window while fleeing. The suspect ultimately crashed in Wood Village, OR, and fled the scene. The WIN team, with the assistance of the Multnomah County Sheriff's Office, was unable to locate that suspect.

In total, the WIN team seized 4.6 kilograms of fentanyl powder, 9.5 kilograms of fentanyl pills, 1.5 kilograms of heroin, 200g of methamphetamine, 155g of cocaine, 7 firearms, 1 kilogram hydraulic press, 1 vehicle, and over \$50,000 in cash. Five suspects were taken into federal custody and later indicted on the charges.
